USER STORIES

FIRST USER STORIE

As a player, I want a tutorial of the game mechanics and objectives, since there's many options and commands and types of decisions, so that I can have an easier time playing the game.

SECOND USER STORIE

As a player, I want to be able to focus on my game elements (ships, soldiers and colonies), so that I can find where I left/built them, because it would become quite hard to find them after expanding and creating new colonies in the game.

THIRD USER STORIE

As a player, I want to be able to create a new Nation, so that I can play with nations different from those in the game and create a gaming experience tailored to my preferences.
